A number of people that visited the SOC stand at Stafford this weekend asked about obtaining seals for Dowty forks. The folk on the velo OC stand provided us with Grove Classic Motorcycles as a source. I went along to their stand and a very helpful chap said the seals, in sets of 12, are available from them at £59.00 plus VAT. Phone number is 01525 270008, part number for the seals is DOW01. Others were interested in spring conversion kits for these forks but we did not manage to track down a supplier, if any one has this information please put it on the site. Best wishes, Jeff Reed.
